By Associated Press
NEW YORK Oct. 6.—Representatives of milk distributing companies handling virtually the entire supply of the city except that dispensed by the Jewish, Swedish, Danish and Mutual dairymen companies have agreed at a conference late tonight to meet the demands of the Dairymen's League for an increased price and greater security under existing conditions.

The proposed agreement would be based on the stipulation that no price be paid without question for the goods of October 1. November and December, but that for January, February and March the shipping milk companies take up the figures for those months from the figures to be paid for the last six cheese and butter prices or minimum they can get after turning it into butter or cheese. It was explained that the dealers agreed to take all the milk production to be produced and share their loss on the part that is left to be sold.

To allay future relations between the dealers and the distributors the conference as agreed to designate a committee providing for a committee of eleven to be appointed so that the dealers offer to pay only what they had to pay to the milk companies as well as business standards. The findings of the committee will be made known in a meeting later this month.
